of your Nautel equipment: ATU-HP tuning; NDB bearing errors, and more.

FEATURED PRODUCT: VECTOR OFFSHORE NDB SYSTEM

- ✓ Nautel's Vector Series VR125 is a field proven, highly reliable, state of the art, solid-state non-directional radio beacon (NDB) transmitter.
- ✓ The ECMP3 is an extended control and monitoring panel for the VR125 NDB system.
- ✓ The ATU500SR automatic antenna tuning unit matches the impedance of the CL-HD antenna to the 50 ohm output impedance of the VR125 NDB transmitter.
- ✓ Nautel's CL-HD Helideck Antenna is a self-supporting "long wire" antenna for use on offshore oil and gas platforms and support vessels.
- ✓ Nautel's NRB4 Beacon Monitor Receiver is a precision receiver for the off-air monitoring of the transmitted NDB signal.
